

Instructions to Edit Your B2B Profile Information

1. Log in to the website using your email address and password ([Login - Bioencapsulation Research Group](#))

2-From the menu on the left, under “Settings”, click on “Profile”

3-This will open your profile with all the information you filled in previously. Change or update any information you would like other participants to see during the B2B meetings. **Please do not forget to click on the red button below the form: “Save Data”.**

Save data

After saving your data, your profile information will be updated automatically, and other participants will be able to see the updated version in the B2B section.

Please note:

You cannot see your own information in your own B2B profile section because you are not going to schedule a meeting with yourself.

Thank you!
